

The « We are shapes » song

(paroles pour le maître, pas d'écrit pour les élèves; chanson à mimer avec les doigts)

I'm a square
I have four sides

I'm a square
I have four sides

We are squares
We have four sides

One-two-three-four
we are squares

I'm a circle

I go round and round

I'm a circle
I go round and round

We are circles
We go round and
round

Round and round

We are circles

I'm a triangle

I have three sides

I'm a triangle
I have three sides

We are triangles
We have three sides

One-two-three
We are triangles

We are shapes

You see us

everywhere

We are shapes
You see us
everywhere

We are shapes
You see us
everywhere

Just look around
We are everywhere
